

MNL Rusty Patched Bumble Bee Mix **(covers appx. 1,000 Sq Ft)**

This seed mix is designed specifically for the Rusty Patched Bumble Bee. Using a list of flowering species that is a high priority food source for Rusty Patched Bumble Bee's, provided by the FWS and BWSR, we were able to use all flowering species that are from this list. This seed mix is best suited for dry to mesic soils and will reach a height of 2-4 ft. Each seed mix order will ship with an appropriate amount of cover crop seed for the project area. the species of Cover Crop seed will depend on the time of year the product is ordered, please inform us if there is a different planting time in mind. If you are interested in seeding a larger area with this mix, please email us at info@mnlcorp.com.
